EDUCATION

Kurukshetra University, Kurukshetra

2023 – 2027

B.Tech; CGPA: 7.1/10.0

India

Sanskaram Public Sr. Sec. School (Class XII – 76%)

TECHNICAL SKILLS

Programming Languages: C++, Java, Python

Web Technologies: HTML5, CSS3, JavaScript (ES6), Node.js, Express.js, React.js

Database: MySQL, MongoDB, Mongoose

Tools & Frameworks: FastAPI, LangChain, LangGraph, Streamlit, Flask, Twilio, Ollama

Version Control: Git, GitHub

Core Concepts: Data Structures & Algorithms, OOPs, REST APIs, Operating Systems, DBMS, Computer Networks

Soft Skills: Problem Solving, Client Communication, Team Collaboration, Adaptability, Time Management

EXPERIENCE

3 Skill

Jul 2026 – Aug 2026

Web Development Trainee

Remote

- Completed an 8-week certified training program covering **HTML, CSS, Bootstrap, DBMS, PHP, JavaScript, and AI in Web Development**, with consistent on-time assignment submissions.
- Designed and presented a complete full-stack final project demonstrating proficiency in **UI/UX design, frontend development, and backend integration**, showcasing the complete web development lifecycle.

PROJECTS

Face Recognition Attendance System | *Python, Flask, OpenCV, MySQL*

- Engineered a real-time face recognition attendance system using **OpenCV** and **Face Recognition API**, automating attendance tracking and reducing manual effort by 80%.
- Built a **Flask-based web application** with **MySQL integration** for secure user authentication and attendance record management, implementing admin approval workflows and real-time monitoring dashboards.

Hand Gesture Volume Controller | *Python, OpenCV, MediaPipe, PyAutoGUI*

- Developed a real-time, hands-free volume control system using **computer vision** and **hand landmark detection** with **MediaPipe** and **OpenCV**, mapping finger distances to system volume levels.
- Integrated **PyAutoGUI** for system-level automation and optimized frame processing to deliver a responsive, low-latency user interface.

AI-Powered Mental Health Support App | *FastAPI, LangGraph, Streamlit*

- Architected an intelligent mental health support platform leveraging **LangGraph** for conversational AI workflows and **FastAPI** for high-performance backend APIs with **RAG** pipelines for contextual response generation.
- Deployed a **Streamlit-based frontend** for rapid prototyping and user testing, demonstrating end-to-end AI integration with enhanced user engagement metrics.

Responsive NGO Awareness Website | *MERN Stack, Tailwind CSS*

- Built and deployed a fully responsive, mobile-first NGO website using the **MERN stack**, integrating **RESTful APIs** for dynamic content management and donation processing.
- Implemented **responsive design principles** and **performance optimization** techniques for seamless cross-device experience, improving stakeholder engagement by 40%.

CERTIFICATIONS & ACHIEVEMENTS

- Agentic AI Certification** – IBM (2024)
- Introduction to Python 101 for Data Science** – IBM
- Generative AI Mastermind** – OUTskill
- Data Analytics Virtual Experience** – Deloitte
- Data Science & Machine Learning** – YBI Foundation
- Web Development Training** – 3 Skills (2026)
